Trustmark
benefits beyond benefits

All businesses – regardless of size – deserve affordable, tailored health benefit plan solutions that match their needs, meet business goals and help employees thrive.

We deliver **big benefits to smaller businesses** with five or more employees, providing self-funded solutions successfully used by large groups. Qualified groups can enjoy simplified underwriting with no individual medical questionnaires needed. We focus on offering comprehensive health benefit plan designs that help empower employers and their employees to become smarter healthcare consumers.

Trustmark Small Business Benefits® self-funded health benefit plan designs provide level-funded solutions for a variety of employer-sponsored benefit needs, ranging from comprehensive major medical plan designs to preventive-only plan designs.

In order to meet the demands of both cost containment and broad provider access, our plan designs are based on both PPO and reference-based pricing models.

For more than three decades, our customers have raved about our service, caring approach and unmatched knowledge and experience. You will, too.

Cost-saving services

Low health literacy among U.S. adults is one of the biggest barriers to healthcare access⁵ and a driver of higher costs.

Our plan designs offer enhanced services, typically found in plans of larger businesses, to help employees make better informed choices that lead to savings for the employee and the plan. These services include:

- Healthcare Bluebook™ for quality and cost transparency of medical tests and procedures.
- Included Health for a medical second opinion.
- Teladoc® for non-urgent medical care and behavioral health treatment via phone, video or mobile app.
- CareChampion 24/7® health advocacy service.
