

TAKE MORE CONTROL OF PHARMACY BENEFITS

SPECIALTY RX SOLUTIONS

One of the major drivers of the cost of healthcare in recent years has been the explosion of Pharmacy costs, driven largely by the increase in specialty drug spend. As of 2021, specialty drug spend accounted for 50% of medical spend and increased 43% since 2016*. Standard health insurance options have failed to effectively address this alarming trend. At Optimyl we take a unique approach to addressing the cost of specialty meds while ensuring members receive the care they deserve.

RX REBATE PASSTHROUGH

RX Rebates are dollars that are given to the PBM (Pharmacy Benefit Manager) when a drug is filled for one of your covered members. The PBM takes a cut of that rebate and sends the rest to your plan administrator which becomes additional revenue. If your plan is with Optimyl that revenue can pass through us and come back to your company.

OPTIMYL BENEFITS IS CHANGING THE WAY SMALL BUSINESSES EXPERIENCE THEIR HEALTH INSURANCE BY USING BOLD IDEAS, DATA-DRIVEN TECHNOLOGY, AND A LASER FOCUS ON CUSTOMER SERVICE.

Offering a customizable product portfolio while keeping health insurance administration simple with a one-stop-shop package.

Providing plan design and network strategies that extract savings from market inefficiencies without compromising the value of benefits or service.
